EXPERIENCES

Clinical Skills

Particularly in Prosthetic Dentistry (complete, partial and fixed); Operative Dentistry in addition to: Endodontic Treatment; Extraction; Periodontal Treatment; Paedodontic Treatment as well as oral surgery and preventive dentistry

Teaching Skills

Clinical Lecturer for the under-graduate students (final year); Clinical Lecturer & Assistant Lecturer (senior dentist) in the under-graduate clinics; teaching students prosthodontic principles (complete, partial dentures and fixed dentures) when they treat patients. My duties involve giving lectures and teaching in clinical sessions. In addition, the duties involve teaching in tutorials and supervising students in the teaching clinics. I am also involved in the examination of students at every stage: preparation, setting up examination questions, examination controls, correction of the papers, and assessing student's clinical work during their seasonal and final exams.

Research Skills

1. Review Papers on EMG Study of Masseter and Temporalis in Two Centric Relation Positions. 2003.
2. EMG Study of Masseter and Temporalis in Two Centric Relation Positions 2002. (MS.c Research)
3. Precise Methods to Obtain the Vertical Dimension and Their Mistakes, 2001
4. Post Insertion Problems- 2000.
5. Different Techniques Used in Root Canal Treatment.1999.
6. Periodontal Surgery, 1999
7. Class III Malocclusion, 1998
8. Insertion of Complete Denture, 1998

ADMINISTRATION

Communication

Team work. Interacting with local organization

Computer Skills

I am familiar with PC & Mac systems. Also with Microsoft Office: Word; Excel; PowerPoint E-Mail; Internet
