

Lesson -1-

Definition of law:

Q1) Translate the following sentence from English to Arabic ?

" Law is a body of general rules and principles regulating human conduct in Society, Obedience to it is enforced by a supreme authority."

From the general definition, it can easily be inferred that. **for a rule to be valid and become law , three conditions must be fulfilled:**

Q2) what are the conditions for a rule to be valid and become law ?

- 1- The rule should be general.
- 2- It should regulate human conduct in society.
- 3- A " sanction" should exist for the enforcement of the rule.
